

Master's of Social Work

## Mission

The following is the mission of the MSW Program at Asbury College. This mission was developed by the faculty and is consistent with the mission of the college and the standards for a quality graduate education program in social work.

*The Mission of the Asbury College MSW Program arises from a belief in the inherent worth and dignity of all persons. This belief is sustained by the College's commitment to historic orthodox Christianity as expressed in the Wesleyan tradition's core emphases on personal and social holiness, resulting in love for all persons individually and for the world, with particular concern for the poor, the vulnerable and the exploited; a passion to seek justice and an understanding that God's grace provides all persons with transforming potential. Graduates will be prepared for theologically informed advanced social work practice in national and global contexts that is agency or church-based.*

*All applicants must read the statement below, as well as read and sign the Character and Fitness form included in the application packet.*

Asbury College seeks those students whose personal lives are characterized by honesty, integrity, and devotion to high academic, moral, and ethical standards. By signing this application form, the applicant is verifying that s/he has read the *Community Expectations for the Asbury College Graduate Student community*, and will adhere to these community expectations.

I hereby make application for admissions to Asbury College. I have requested all official transcripts and letters of recommendations to be sent to the College's Office of MSW Studies. The information supplied in this application is complete and correct to the best of my knowledge.
