Payment plans

Payment in Full: Payment for the entire bill, less financial aid, is to be made at registration. You may make this payment with cash, check, or credit card. Registration is the only time tuition may be paid using a credit card.

Five-Month Payment Plan: The account balance for each term less pending aid is divided into 5 installment payments. The first payment is due no later than 30 days before the first class period. The remaining four payments must be made on time. No interest charge is applied to this payment plan. The account will be placed on the deferred payment plan (which accrues interest) if payments are not made on schedule.

Deferred Payment Plan: The account balance for each term less pending aid is divided into four installment payments. The first payment is due at registration. Each month a payment is made so the entire bill is paid in three months after the registration date. An interest charge of 1% (12% APR) of the outstanding balance is charged each month.

Student Financial Responsibility

It is expected that when a student signs a financial agreement to pay all tuition and fees, that this means that the student is pledging to faithfully fulfill all financial obligations to the College. The College reserves the right to take whatever steps are necessary for those who default on payment. Diplomas and final official transcripts are not released until all academic and financial obligations to the college are satisfied.
