**MAJOR REQUIREMENTS**

57 credits plus completion of Foundation curriculum. Minimum 124 credits required for graduation.

**DESCRIPTION**

The Accounting major at the Dayton School of Business focuses on preparing students for careers in public, private and not-for-profit accounting, as well as for graduate studies and accounting certifications.

The field of accounting provides a vast number of job opportunities within all types of organizations from public accounting firms to businesses to churches and other service organizations. To most effectively prepare for the different areas of accounting and to impact the kingdom through our work, the accounting major challenges accounting students to consider the technical skills that they are learning through a Biblical lens.

In all states, the Society of Certified Public Accountants requires 150 credit hours to sit for the CPA exam. Our recommendation is that the student complete the undergraduate accounting major from Asbury and obtain the additional hours needed to sit for the CPA exam in a graduate program such as the Asbury 4+1 MBA.

**MBA 4+1 PROGRAM**

Students accepted into the program have the opportunity to take up to three MBA courses during the senior year of their undergraduate program at no additional cost. These courses can transfer into the MBA program; they are not dual credit courses.

For more information, visit <https://www.asbury.edu/offices/registrar>.

+ Based on course availability and transfer credits. Each student schedule will be unique. Contact an academic advisor to confirm any modifications to the suggested schedule.
