

Student Health Services

Physical Wellness

ASBURY UNIVERSITY

Academic Excellence & Spiritual Vitality

Location

- We are located on campus at the Center for Wholeness and Wellness, behind the cafeteria on College Street.
- We are a comprehensive health center and want to meet your student's health care needs while at Asbury.

Services

- Evaluation & treatment of illness and injury
- Lab tests
- Medications/Allergy Shots
- Physicals and women's exams
- Referrals
- **NO CHARGE** for nurse/doctor visits and we do not bill insurance.

There may be a minimal charge for some medications, laboratory tests and physicals

Availability

Clinic Hours will be by appointment only

Call or email for an appointment

- 859-858-3511, ext. 2277
health.services@asbury.edu
- Open: Monday-Friday 9am-3pm
– (closed for lunch 12-1pm)
- After Hours: contact University Switchboard
(859-858-3511, ext. 0) to be connected with
the Emergency Nurse Phone Line

Confidentiality

- We follow federal HIPAA privacy laws
- If student is under 18 years of age, we must get permission from you to treat
- If student is over 18 years of age, the student must give permission in order for us to talk with you – even if you are paying the bills!

Required Health Documents

- We do have some required health documents that your student should have been notified about on their Asbury Checklist.
 1. Health History (online questionnaire)
 2. Updated copy of Immunizations
 3. Copy of Insurance Card

COVID-19 Updates

- Our PREP team has been working hard all summer to put together a plan to help keep everyone safe.
- That is our #1 priority!

Things to Remember and Plan for:

- **GET VACCINATED!** We are strongly encouraging students to get vaccinated and upload a copy of their vaccination card.
Health Services will maintain the list of vaccinated students. This will help us plan who needs to be quarantined when exposed or symptomatic.
- **Bring a mask!** We are asking everyone to have a mask available in case we need to go into MASK MODE. **New CDC Recommendations**
The CDC recommends unvaccinated students wear a mask when indoors outside of their living space. (Cloth masks that can be washed and re-worn).
- **Daily FACTSSS Check:** Fatigue, Aches, Cough/Congestion, Temp, Sore Throat, Senses, Shortness of Breath, Stomach Ailments
- **Bring your own personal thermometer**
(some are available but not enough for everyone)

Quarantine & Isolation

QUARANTINE:

- Students who are unvaccinated or do not show proof of vaccination will be required to quarantine if exposed to someone who has tested positive for COVID.
- Students who develop symptoms or have a positive FACTSSS check will be required to get tested for COVID and quarantine until test results are back.

ISOLATION:

Students who test positive for COVID will be required to isolate for 10 days from either the start of symptoms or from a positive test. We are encouraging students to isolate at their permanent residence if they are able. We have limited isolation housing on campus. To help cover the added expenses of having someone in isolation, like food delivery, cleaning and special housing, a fee of up to \$25/day will be charged.

Testing

- COVID testing will not be available on campus at this time, but we have a detailed list of testing sites in Wilmore, Nicholasville and Lexington. Some require appointments, some will allow walk-ins.
- Students will need to bring a copy of their insurance card.

Partnership

We are looking forward to partnering
with your student so that we can all
RETURN TO REGULAR!!
