Witnesses or victims reporting a crime to campus security authorities are confidential and shared with university employees on a need-to-know basis. All crimes reported to campus security authorities will be reported on the institution's website and in the annual crime statistics without witness or victim identifiers (i.e., a student reported...). Campus security authorities, primarily led by the Assistant Vice President of Campus Safety, may assist employees and students in contacting law enforcement as needed, and/ or if an employee, or student is unable to report to law enforcement, ensure law enforcement is notified.

Section 7 – Sexual Assault Policy and Information

Sexual Harassment

Asbury University is committed to providing an environment free of unlawful discrimination or harassment. Asbury University does not condone sexual harassment or discrimination on the basis of race, color, gender, age, national or ethnic origin, or disability.

Sexual harassment initiated by or toward any member of the Asbury University community, whether student or employee, is prohibited by law and will not be tolerated. Individuals who fail to comply with this policy will be subject to disciplinary action up to and including dismissal (student) and termination (employee).

Sexual harassment is defined as unwelcome sexual advances; requests for sexual favors; and/or verbal, visual or physical conduct or written communications of an intimidating, hostile or offensive nature; or action taken in retaliation for reporting such behavior, regardless of where such conduct might occur, when:

1. Submission to such conduct is made a term or condition of person's employment or academic progress; or
2. Submission to or rejection of such conduct by a person is used as a basis for academic or employment decisions affecting the person; or
3. Such conduct has the purpose or effect of substantially interfering with a person's work, or academic performance, or creating an intimidating, hostile or offensive work or academic environment.

Sexual harassment includes, but is not limited to, unwelcome verbal, visual or physical behaviors. These behaviors may occur as sexual comments or advances, sexual slurs or jokes, leering, displays of sexually suggestive objects or pictures, sexually suggestive gestures, touching, physical abuse or sexual assault. The difference between voluntary sexual relationships and sexual harassment are the elements of coercion, threat and/or unwanted attention that exist in a non-reciprocal relationship. Individuals should be aware that comments or conduct that one person finds merely amusing may offend or upset another person.

Reporting Procedures

Any person who believes that they have been the recipient of, or witness to, harassment is strongly encouraged to report the alleged occurrence(s) as soon as possible to institutional complaint coordinators listed below, and if they so desire, to the local law enforcement authorities. If a student is more comfortable reporting the incident to a resident director, associate dean, or faculty member, they are encouraged to do so immediately, and then that person should inform the appropriate complaint coordinator. If the appropriate complaint coordinator is unavailable, incidents should be reported to any available coordinator. The following is a listing of assigned coordinators based on whom complaints are against:

- a. Complaints against Asbury University students should be directed to The Vice President for Student Life, who also serves as the lead Title IX Coordinator. The VP of Student Life has an office located at 101 W. Main, and may be contacted at (859) 858-3511 ext. 2116.
- b. Complaints against Asbury University faculty should be directed to The Provost, whose office is located in the Hager Administration Building at (859) 858-3511 ext. 2500.
- c. Complaints against Asbury University staff or vendor should be directed to The Vice President for Business Affairs. The Vice President for Business Affairs may be reached in the University Business Office in the Hager Administration Building at (859)858-3511 ext. 2106.

Resolution Process

Complaints about sexual harassment will be responded to promptly, thoroughly and equitably as the law requires. The right to confidentiality of all members of the University community will be respected insofar as possible. This policy explicitly prohibits retaliation against individuals for bringing complaints of sexual harassment.

Formal Complaint Process

1. The complaint coordinator will request that the complainant provide a detailed written account that describes the circumstances and facts, including witnesses, surrounding the complaint.
2. The complaint coordinator will take appropriate steps to attempt to ensure that no further contact occurs between the complainant and the accused.
3. Upon receiving a written formal complaint, the complaint coordinator will contact one of the Title IX coordinators for an investigative committee to be established. Both genders will be represented on the investigative committee. Students directly involved in the investigation will have an advocate appointed by the V.P. of Student Life (or designee) to guide those students through the complaint process.
 - a. The Title IX coordinator(s) will assign investigators to conduct an inquiry in a manner appropriate under the circumstances.
 - b. After a timely and thorough investigation is completed, the Title IX coordinator(s) will review the results and determine whether the complaint has merit. If the complaint is without merit, the accused will be promptly notified of such determination. If the complaint is determined to have merit, the Title IX coordinator(s) will recommend appropriate disciplinary action to the complaint coordinator. The complaint coordinator will then determine the disciplinary action to be imposed and promptly advise the accused of such decision. Such disciplinary action may range from a formal written reprimand to dismissal, or termination.
4. The accused individual has the right to appeal the disciplinary action imposed by following the appropriate appeals process provided by the institution.
5. The individual who brings the complaint will be informed of the outcome of the complaint to the degree permitted by law. In the event of a victim's death, disclosure will be made to a victim's next of kin upon written request to the degree permitted by law.

Sex Offenders Registry in Kentucky

The Kentucky State Police maintain a Sex/Criminal Offenders Registry Website. This website is provided as a result of changes in KRS Chapter 17, Kentucky's version of "Megan's Law". The Kentucky State Police is now providing sex/criminal offender

registration information to the public through this website. The intent of this site is public safety and awareness. This database is made available to alert possible victims of potential danger, not to punish or embarrass offenders.

The Kentucky State Police Sex Offenders Web site is available at: <http://kspsor.state.ky.us/>

Programs/ positions that promote awareness and educate

Student Life has a campus victim's advocate, and a mental health counselor who conduct Intervention Training at various times throughout the year to discuss dating violence, domestic violence, sexual assault, and stalking. These classes are posted on various bulletin boards around campus and emails are sent out to notify students of training opportunities. The University also partners with 3rd Millennium Classrooms for a number of online courses including drug, alcohol, smoking prevention, conflict resolution, domestic violence prevention, and sexual assault prevention.

Asbury University has a women's Self-Defense Club, which promotes situational awareness, pro-active decision making, close-quarters self-defense, and provides role-playing opportunities, which are aligned with Bystander Intervention Training and meets during the semesters. The club sponsors co-ed nights at various times in the semester. The club is sponsored by the Assistant VP of Campus Safety.

Section 8 - Emergency Response, Notification and Evacuation

Emergency Notification Policy

The Asbury University Emergency Response Plan establishes policies, procedures and the organizational structure for response to emergencies. The plan contains clear strategies and the responsibilities of various departments (Administration, Campus Safety, Facilities Maintenance, Health Services, Residential Life, etc.) during the initial response and throughout an emergency. The plan and organization shall be subordinate to Municipal, County, State and Federal plans during a disaster declaration by those authorities.

Emergency notifications to the University and community will be issued without delay by a University Administrator or designee in accordance to established guidelines in the Clery Act.

In the event of a serious incident which poses an immediate threat to members of the Asbury University community, the University has various systems in place for communicating emergency information quickly to those individuals. Some or all of these methods of communicating may be activated in the event of an immediate threat. The warning may be issued via the university web site, "asbury.edu", campus email, mass text messaging, college

cable channels, university radio station, WACW, and/or other means deemed appropriate. Depending on the particular circumstances of the emergency, additional notices may be posted in each residential facility and within academic buildings.

Emergency Evacuation Guidelines

In non-fire emergencies, a decision to evacuate will be based on the information available at the time, i.e. the specific threat type, its context (time of day, location, likelihood, etc.) and the recommendations of the President's Cabinet/ Response team. When an order is given to evacuate a building for any reason occupants shall be instructed to not use elevators, and to evacuate by way of the nearest safe stairway or egress point. Occupants will be instructed to exit the building and proceed to a pre-designated Emergency Assembly Area (EAA). Emergency Assembly areas are indicated on the Evacuation Plans posted in each building and indicated as blue pins on the “area map “within the Campus Shield safety app, which is available for all students and employees . Campus Safety officers, resident directors/assistants, and University staff all have responsibilities during an evacuation, including assisting those with disabilities.

The University will test the emergency response and evacuation procedures through a variety of exercises, which may include table top and/or functional exercises.

ANNUAL CAMPUS FIRE SAFETY REPORT – 2022

During a drill or fire emergency, the Student Life staff and/or Campus Safety personnel would assist persons with disabilities who may require assistance evacuating a building as needed.

Fire Safety Education & Training:

Annual fire safety education and training is provided for the Resident Life staff. Staff members conduct mandatory meetings for their communities and are the first line of defense in residence hall fire safety. The training includes information on fire prevention, emergency and evacuation procedures, basics of the fire safety systems, and conducting fire safety sessions for residents.

Facilities Maintenance personnel involved in welding or other hot work operations receive mandatory fire prevention and fire extinguisher training. All custodial services staff members receive fire prevention, fire safety, and hands-on fire extinguisher training. Faculty, staff, and student groups periodically receive fire safety training customized for their situation.

University Policies related to Fire Safety:

The University as well as state health and fire regulations prohibit cooking and the use of microwave ovens in resident's rooms, burning of candles, incense or other open flame items, and the storage or use of flammable liquids.

University policy also prohibits smoking or the use of smoking products, possession of fireworks, the use of alcoholic beverages or illegal drugs, and the possession of firearms, or other weapons anywhere on campus per Kentucky Revised Statutes.
