2024-2025

BUSINESS ADMINISTRATION, M.B.A.

Graduate Studies; Management & Marketing Department; Howard and Beverly Dayton School of Business

Sustainable, innovative wealth creation in the economy, as well as viable, effective social institutions in the nonprofit sector, require sophisticated management skills grounded in a robust understanding of ethics and Christian virtues. Asbury University's online MBA program educates men and women from around the world in a graduate management curriculum that will enable them to integrate their faith and work in a manner that leads to our distinctive focus on management of the triple bottom line. Students choose between two concentrations. The Business Management concentration leads to a deeper understanding of the for-profit economy, while the Nonprofit Management concentration focuses on skills unique to that sector of society.
