

2026-2027

NURSING MAJOR, B.S.N.

Nursing Department; Shaw School of Sciences

Asbury University department of nursing is committed to academic excellence and spiritual vitality. It is our mission to prepare nursing graduates who are called to the nursing profession, committed to lifelong learning, leadership and service to others, by modeling the caring ministry of Christ around the world. Consistent with the core values of Asbury, a Christian Liberal Arts University steeped in the Wesleyan-Holiness tradition, Nursing faculty and staff foster growth of the mind, body, and spirit by providing meaningful learning experiences in various settings with opportunities to care for individuals across the lifespan. In doing so, we are preparing competent nurses capable of providing compassionate patient care, engage their culture, and advance the cause of Christ around the world through a caring ministry of professional nursing. Our goal is to deliver a quality nursing education program that prepares graduates for licensure and a successful transition to practice.

Students must complete all Foundations requirements and major requirements, as well as any additional General Electives needed to reach the minimum of 124 total credits required for a Bachelor's degree. This program may require more than 124 credits for a degree due to specific requirements.

[This program is pending approval from SEVIS and therefore not currently available to international students.]

The baccalaureate degree program in nursing at Asbury University is pursuing initial accreditation by the Commission on Collegiate Nursing Education (<http://www.ccnacreditation.org>). Applying for accreditation does not guarantee that accreditation will be granted.

Required Foundations Communication Course: **COM130**

Required Foundations Social Science Course: **PSY101**

Required Foundations Mathematics Course: **MAT125**
